Here is the final ICF for reference during your review.

Thanks,
Valerie

Jim:

One of the ideas that came out of the meeting we had with the Covance lawyers while you were on holiday was to develop a video that will supplement the Informed Consent Form for the Total Exposure Study. To that end, could you pls take a look the enclosed script and provide me with comments and feedback as soon as possible? FYI-- Rob Conley has seen the ICF and may be able to provide some insight to the video. I will forward the actual informed consent tomorrow. Kevin and I will review the script in parallel.

Thank you in advance for your assistance.

Chris

Chris:
Here is the electronic version of the video script for Legal's review. Please let us know your comments.

Thanks,
Valerie

Subject: PM Video Script

Attached is the video script for 8451. I pulled all information directly from the IRB-approved consent form. I met with the video producer today and he is going to finalize his vision of how to shoot this and get back to me today. We will most likely use a combination of still canned shots depicting research, and some shots of our employees posing as volunteers in quick shots of LFTs and topography device use.

This script needs IRB approval - it is being mailed to the IRB today so they can review it on Monday 8/19. We will set up the video shoot for next Wednesday after IRB approval is obtained. The IRB will still have to approve the final video, but I believe this can be done via expedited review.
